## Nervous Breakdown.

*Stoke Newington, 9/11/1906.*

I write to thank you for the kindly interest you have taken in my case. It is with deep gratitude that I let you know how successful your **Magnetic Treatment** has been to me. I shall have occasion to go to the City one day during next week, so would like to call and see you while I am there.

E.M.H

---

## Neuritis.

*Wandsworth.*

After having suffered off and on for two years from Neuritis (or pain in the nerve centres), nearly losing the use of my left arm from the effect of same, and finding medical treatment of little avail for getting at the root of the trouble, I was persuaded by a friend, who had already found the benefit of Magnetism, to give it a trial. After a great deal of thought I decided to try at least a part of the outfit, and purchased a Body Shield. After only wearing the same for a week, I found wonderful benefit, and could get proper night sleep, which was impossible before. I have now had the Shield three months, and cannot speak too highly of its wonderful effect on my whole system, feeling nothing now of the dreadful pain I endured before taking up Magnetism. I shall be glad to answer any enquiries with reference to this testimony, and which I with grateful heart give you the liberty to publish.

M.R.B.

# Neurasthenia.

*Manchester, September 11th, 1906.*

It gives me great pleasure to write and thank you for the appliances you made me and the good derived therefrom. I suffered very much from bodily weakness, but am now so much better that people constantly remark how well I look; therefore, I am most grateful to you and would strongly recommend your treatment for any weakness. You can make what use of this you like. (Miss) T.B.E.

---

*Stoke Newington, September 13th, 1906.*

I have very great pleasure in testifying to the fact that Magnetism has done me a great deal of good, and *I specially felt the benefit of my Shield whilst in the Gold Coast Colony, West Africa.* I had good health there in what is known as the white man's grave, which I should think is as good a test as Magnetism could have. I am always ready to recommend your treatment to any of my suffering friends. L.E.

---

# Asthma.

*Bridge St., Abercarn, January 25th, 1907.*

I am pleased to testify to the great benefit received from Magnetic Treatment. I suffered terribly from Asthma for many years, and death was very near me more than once. I am now able to do a great deal of open-air preaching in all weathers, besides my ordinary duties, and without any return of my old enemy. It seems all so wonderful to me, I sometimes can scarcely believe that I am really cured.

---

A.H.

*London, W.C., January 28th, 1907.*

It is difficult to express all I feel about the benefit my wife received from the Magnetic Apparel which she obtained from you. For nearly ten years her health had been a

*Radcliff, 5/2/07.*

I have great pleasure in writing you reporting a better improvement in my case of Varicocele. All is going on better, and I thank you for your last advice to me. The constipation is better also. A.H.

---

*Manchester, 25/3/07.*

I am very glad to say that the Varicocele has decreased, and my nerves are better. Constipation is better. D.C.

---

### **After 7 weeks' Treatment.**

*Choppington Colliery, March 8th, 1907.*

Since wearing appliances I am in much better spirits, have greater power of mind. One thing in particular I am pleased to report, that is, Mental Decision. I am more decided in action, have a better memory, and can control my temper better. I have great faith in Magnetism. C.F.

---

## **Varicose Veins & Indigestion.**

*Chingford.*

It is with pleasure I now write to tell you the Varicose Veins in my legs have almost entirely disappeared. When I think of the agony I endured, and the continual fear I had of the veins bursting, I cannot adequately express my gratitude for the benefit received from your Magnetic Treatment.

I would also like to add that I have benefited in many other ways by your treatment. I was a great sufferer from Indigestion, Extreme Lassitude, Constipation, etc., but am now quite free from these symptoms.

I quite understand and appreciate what you said about your treatment toning up the entire system. I can truly say that never at any time have I felt so well as at the

present. I am a source of astonishment to my friends, who had become accustomed to hear of my being in the doctor's hands.

J. E. POLLOCK.

---

## General Weakness.

*Shoeburyness.*

Should I come across anyone who is in need of your appliances, I will recommend them to you, *as I feel that it is to you that I owe my present good health.*

R.H.H.

---

*Austria, November, 1906.*

I received your letter and can tell you I had great relief from the Magnetic Treatment, and I am now healthy and strong. I hope to be in England later and will call and see you.

E. FISCHER.

---

## Chronic Dyspepsia.

*London, N., August 29th, 1906.*

Some time ago when I wrote to thank you for recommending me a Magnetic Appliance for my chest and stomach troubles, I promised I would again write and let you know if I still derived benefit from its use. I am very pleased to be able to say that I have never felt any lasting effects of my complaint since I first wore the appliance, and am certainly better for wearing it. I should be *sorry now to be without it.*

A. FRANCIS.

---

*South Woodford, Essex, October 9th, 1906.*

I am absolutely astonished at the result. I now enjoy better health than ever before. My digestion is greatly improved, my skin is clearer; in fact I am a surprise to all that know me. One time I was always wondering what medicine to take.

G.W.

# Rheumatism.

*Middlesborough, September 22nd, 1905.*

I am happy to say that the Belt supplied by you has had very beneficial results. For a number of years I had been compelled to give up work for several weeks during the winter months, but now I am able to continue working winter and summer—thanks to Magnetic Apparel. You may rely upon me recommending Magnetism as a remedy for Rheumatism.

N.H.

---

*London, W.*

At the time I adopted your Magnetic appliance I was a great sufferer from Rheumatism. I am pleased to say that after a few months' treatment, I am feeling great benefit from the Outfit, and have pleasure in adding my testimony to the already large number of grateful patients.

C.H.

---

*Linthorpe, September 17th, 1906.*

Referring to the Magnetic Outfit supplied by you, I have much pleasure in saying that it has been of immense service to me; indeed, it has exceeded my highest expectations. Before I adopted your treatment, I was always in an indifferent state of health, but now I am scarcely ever troubled with my old complaints. My children have also derived much good from the Apparel and speak in the highest terms of it. I feel it to be my duty to bring the treatment to the notice of other sufferers. You have my permission to make what use you like of this letter.

M.N.

---

*Clacton-on-Sea, April 6th, 1907.*

I can honestly say that Magnetic treatment has done more to relieve my Rheumatism

than any other treatment. I have suffered for over four and a half years, and tried everything I could hear of, and I seemed to be getting gradually worse. I tried your treatment as a last resort, without much hope. I have not felt a twinge for several weeks, and had not for four years before known what it was to pass a week without considerable pain.

L.F.

---

## **Rheumatism and Heart Weakness.**

*Clapton, May 28th, 1906.*

It is only a short time since I started wearing the **Magnetic Vest** which you made for me, and I am very happy to state that there is a decided improvement in my condition.

I am feeling much better in my general health, and the weakness of my heart has not seemed nearly so noticeable since I commenced your treatment; its action has also been more regular.

The weakness, as you are aware, was caused in the first place through Rheumatic Fever, and I might add that the Leggings (Magnetic) which I had from you some months ago have, I believe, been the means of preventing a return of Rheumatism in the lower limbs, and you know how badly I suffered with Rheumatics previous winters, as I explained when I called to see you at your Consulting Offices.

I shall be very pleased to recommend your treatment to any of my friends, as I feel it cannot be spoken of too highly.

S.S.
